

Item name: 10W 40K RGB full color animation laser light Built-in FB4 optional

Model NO.: N2550

Item NO.	Red laser	Green laser	Blue laser	Price/USD
F2550 -915	R4000mw/638nm	G4000mw/532nm	B7000mw/450nm	\$2980.00
F2550 -913	R4000mw/638nm	G3000mw/532nm	B6000mw/450nm	\$2370.00
<b>F2550-910</b>	<b>R3000mw/638nm</b>	<b>G3000mw/532nm</b>	<b>B4000mw/450nm</b>	<b>1900.00</b>
F2550 -G10	/	G10000/532nm	/	\$5150.00

All kinds of OEM/ODM available, please consult our professional sales manager for more details.

**Technical Specifications:**

Power: AC90V-240V, 50-60HZ

Related Power: 250w

Laser power: 10W

Laser wavelength: R3000mw/638nm G3000mw/520nm B4000mw/450nm

Beam diameter/Angle:<5mm diameter;<2.0 mrad

Laser type: imported semiconductor solid-state laser

Modulation: TTL/ Ang

Scanning system: 40KPPS

Scanning angle: 30°

Control model: DMX512, RJ45 ILDA, Master&slave, Automatic, Music control,

Equipped with FB4-SE QuickShow Hardware

Effect: 128 kinds of patterns inside. The SD card holds hundreds of images and animations

Cooling system: cooling fan

Operation Temp: -10-35°C

IP rating: IP20

Control panel: LCD display

Application: Disco, Bar, DJ club party, Theater; Concert, stage show, other performance and show.

Body size: L518\*W382\*H288mm

Tel: +86(20) 36391055/1255; Fax: +86(20)3639 3166; Mobile phone No.: +86 13318866359

Factory address: 2/F,Rongxi Industry Zone,NO.35,Rongyin Road, Shijing Town,Baiyun District,Guangzhou,China.

NW/GW:35KG/52KG (18W)

**Features:**

Cost effective laser system

Super bright and well visible beams

Vivid colors and great color fading

High speed 40Kpps scanning system enable to provide great performance for both projections and beams

Built-in Pangolin FB4 available, low noise fans, compact case,

Beam diameter/Angle: >5mm, 1.5mrad tight beam,

Analog or 100KHz TTL modulation optional, digital driver,

work in -10 and up to 40 degrees temperature!

High stability, good white color balance, easy to carry and mount and align,

This indoor scanner system has a browser interface for easy control and fast scanners for sharp graphic projections.

Demanding graphics projections or projections over long distances are possible without any problems.

**Application:**

stages, live gigs, nightclubs, show production, disco, bar, DJ club party, concert, theater, festivals, weddings, events and any other entertain places which requires a unique visual.
